

LEISURE POOLS

SWIMMING IN QUALITY AND STYLE

Leisure Pools Composite Armour™ = Lifetime Warranty

The most important single component in any swimming pool project is the actual pool shell itself. It is essentially the centrepiece for your landscaping and surrounds.

Leisure Pools is so confident in our research and development that we build the world's best composite pool that we offer a Lifetime Structural Warranty and Lifetime Structural Osmosis Warranty on all of our swimming pools, making us the only manufacturer to offer this level of warranty.

So why are Leisure Pools different to the rest? It comes down to 4 key elements:

- Patented Composite Armour™ Core of Strength
- Patent Pending Full Vinyl Ester Resin Construction
- Composite Armour™ Step Technology™
- Exceptional Quality Control

Patented Composite Armour™ Core of Strength

This totally new patented technology in swimming pool manufacturing is designed to significantly reinforce the swimming pool with a strategically integrated laminate consisting of a blend of DuPont™ Kevlar®, Carbon Fibre and Basalt Fibre. We call it our Core of Strength.

These high performance fibres have many applications in cutting edge technology and when combined through Leisure Pools' patented new technology, Composite Armour™ brings a new level of performance to the production of composite swimming pools.

By using Composite Armour™ in the pool shell laminate, we have been able to achieve tremendous improvement in flexural and tensile strength compared with normally constructed fibreglass pools.

Full Vinyl Ester Resin Construction

Leisure Pools have a patent pending to be the only company able to offer a swimming pool with a full Vinyl Ester Resin Construction, allowing Leisure Pools to offer the following amazing benefits:

- Vinyl Ester Resin Construction means improved structural strength over traditional Polyester Resin
- By constructing all layers after the gelcoat colour with Vinyl Ester Resin means a Lifetime Structural Osmosis Warranty

Composite Armour™ Step Technology™

Leisure Pools believes that when you step into a swimming pool or sit on a bench in a swimming pool it needs to feel solid. With Composite Armour™ Step Technology™ step and bench deflection have been reduced providing a "solid" foundation for entry and exit steps compared with normally constructed fibreglass pools.

DuPont™ Kevlar® is a registered trademark of DuPont™

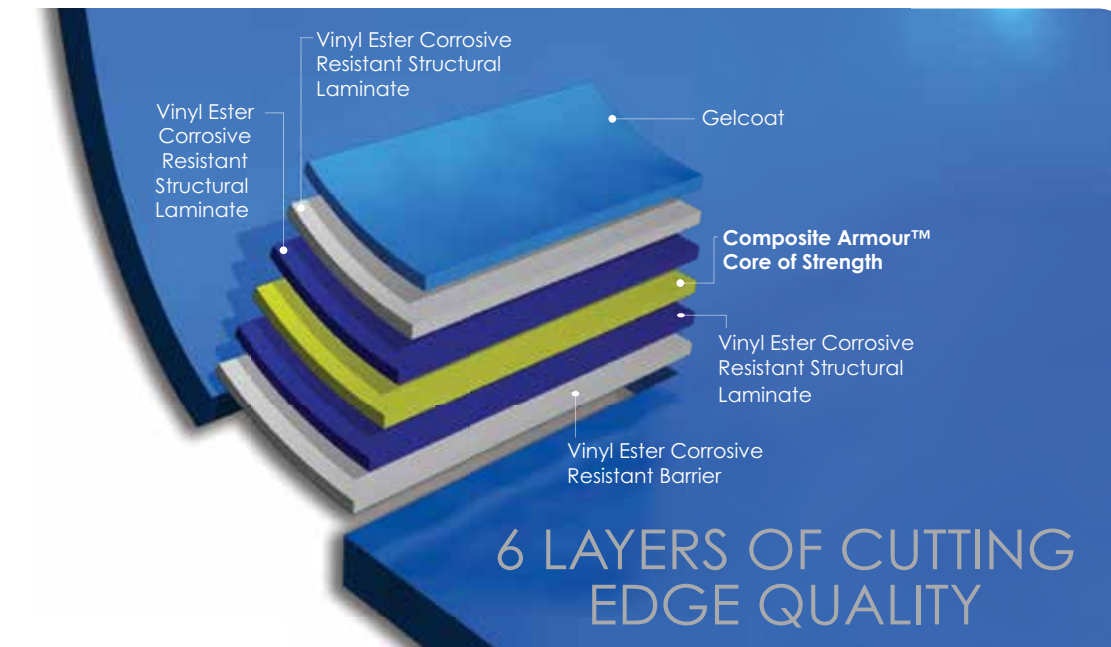

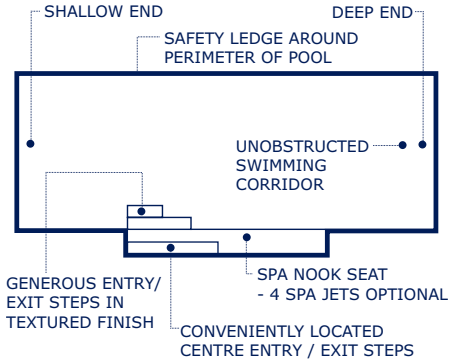

Exceptional Quality Control

Leisure Pools' exceptional quality control consists of:

- The establishment of the Leisure Pools Technical Centre which is managed by a Polymer Chemist
- Batch testing incoming raw materials against benchmarked materials
- The Leisure Pools Technical Centre conducting the following tests on each swimming pool:
 - Flexural and Tensile Strength Test
 - Cure Percentage Tests of each Layer
 - Barcol Hardness Testing
 - Boil Testing of Laminates (random samples)
 - Burn Testing of Laminates (random samples)
- Weighing all materials to ensure correct quantities in each swimming pool
- Ultra Sonic Thickness Testing ensuring compliance against the Leisure Pools benchmark (random samples)

Leisure Pools have invested heavily in exceptional quality control enabling them to offer a Lifetime Structural Warranty and Lifetime Structural Osmosis Warranty.

Colours and Finishes

Leisure Pools SMART Range

If you're looking for something a little bit special, then this is the colour range for you.

These colours are given an added brilliance by having an in-built sparkle and shimmer effect. In different lights your pool will look like it has millions of diamonds scattered over the pool surface.

Why do we call it SMART? Well this colour range also features Allnex Composite's AQUAGUARD ECO Gelcoat which is a new generation, high performance gelcoat combining advanced performance and dramatically reduced VOC emissions as a consequence of extremely low styrene content. The AQUAGUARD ECO Gelcoat provides up to 50% less VOC emissions than traditional gelcoats used in fibreglass swimming pools making it better for the environment.

Leisure Pools Granite Range

As with the SMART Range, the Leisure Pools Granite Range features the unique non-abrasive granite style finish.

This is a proven range of colours and even though choice of colour is such a personal thing, you will have little chance of going wrong with any of the colours in this range.

Each of the colours in this range will guarantee that 'Wow' factor for your home. The only problem you will have is choosing just one because they all look so good.

The Cascade

The Cascade water feature filtration enclosure is a very popular addition to any pool in our range. Its smaller width makes it suitable for small pools as well as large. The enclosure still boasts an enormous storage area for your filtration and pool accessories.

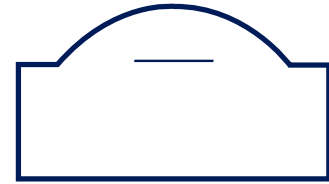

WIDTH	HEIGHT	DEPTH
2.38m	1.20m	.80m

The Oasis

The Oasis water feature filtration enclosure is very versatile and is well suited to many of our pool shapes and sizes. The centre section of the enclosure will adequately house all your filtration, keeping it protected from the weather and very quiet. With the cover removed you will have excellent access to pumps, filters and chlorinators for any cleaning or maintenance.

WIDTH	HEIGHT	DEPTH
2.80m	1.00m	.78m

The Serenity

Introducing the Serenity water feature filtration enclosure. The newest addition to our range features a flowing curve that would look spectacular alongside any of our pools but in particular the Moroccan and Opulence pool ranges. Whilst this is a compact sized water feature it still provides ample space for all your filtration requirements as well as handy storage for all the bits and pieces around the pool.

WIDTH	HEIGHT	DEPTH
2.38m	1.30m	.78m

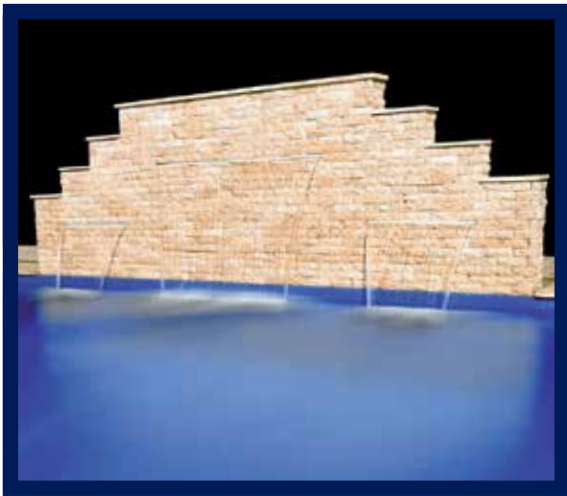

The Equipment Cover

If you are not wanting a water feature, yet still wish to protect your valuable pool equipment then consider a Leisure Pools Equipment Cover. The Equipment Cover will not only protect your equipment, but it will serve to reduce pump noise and hide unsightly equipment.

The Equipment Cover has space inside to store chemicals and other pool accessories to keep your pool area neat and tidy. The Equipment Cover comes standard in a smooth beige finish which will blend with most house colours.

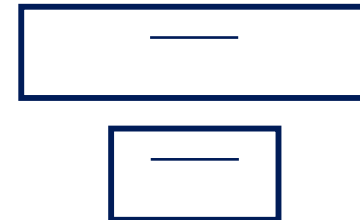

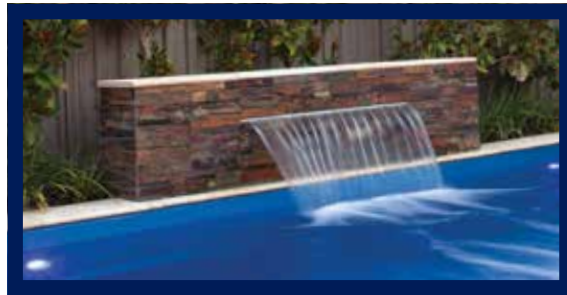

WIDTH	HEIGHT	DEPTH
1.44m	1.20m	.95m

The Niagara

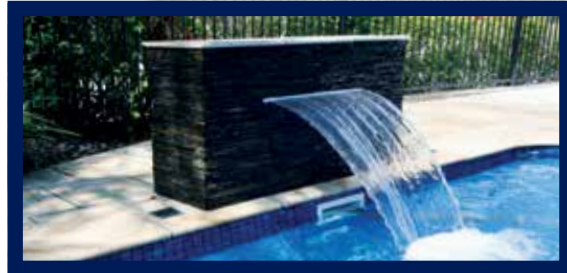

The Niagara water feature filtration enclosure is a classic stepped water wall of significant size for the larger pool. This unit can easily accommodate an 1800mm wide sheer descent for a spectacular sheet of water effect. This imposing water feature will make a spectacular addition to your pool that is bound to impress everyone.

WIDTH	HEIGHT	DEPTH
3.60m	1.45m	1.00m

The Waterwall

The Leisure Pools Waterwall has been designed with timeless style and endless possibilities in mind. Not only will the Leisure Pools Waterwall sit comfortably beside any Leisure Pools swimming pool, it will add a peaceful tranquillity of running water that will enhance the look and feel of your swimming pool and surrounds.

WIDTH	HEIGHT	DEPTH
1.20m or 2.40m	.60m	.33m

Filtration Enclosure

Who doesn't want a water feature these days? The peaceful calmness that one gets from watching and listening to running water appeals to everyone. So why not combine this vibrant experience with a practical application?

Leisure Pools introduces a water feature that is combined with an enclosure for your pool filtration. At the back of your water feature is a practical enclosed area for your pool's pump, filter, salt chlorinator, pool equipment, chemicals, storage of toys and other things you use around your pool. All neat and tidy, sound proofed and protected from the weather.

Leisure Pools water features are made from fibreglass and are strong and long lasting. As standard they come with a masonry look finish in various colours. But they can be tiled or have various cladding applied to completely change their look to blend with your swimming pool landscaping.

“ Leisure Pools' range of fibreglass swimming pools and water features is Australia's most architecturally modern and innovative range on today's market. ”
